PA and Information Form

Throughout the day both during the racing and intervals, the PA commentator will broadcast background information on your team/crew. Not only will this help during the races but a great chance to promote the company/club/team you are representing.

If you would like information/stories to be shared during the day, please provide us with as much information as possible. It doesn't all have to be serious, tell us about your team, talk about your team attire/fancy dress, have you done it before? If so, where did you finish? We want to know everything.

Please fill this out and hand it in when you register your team.
